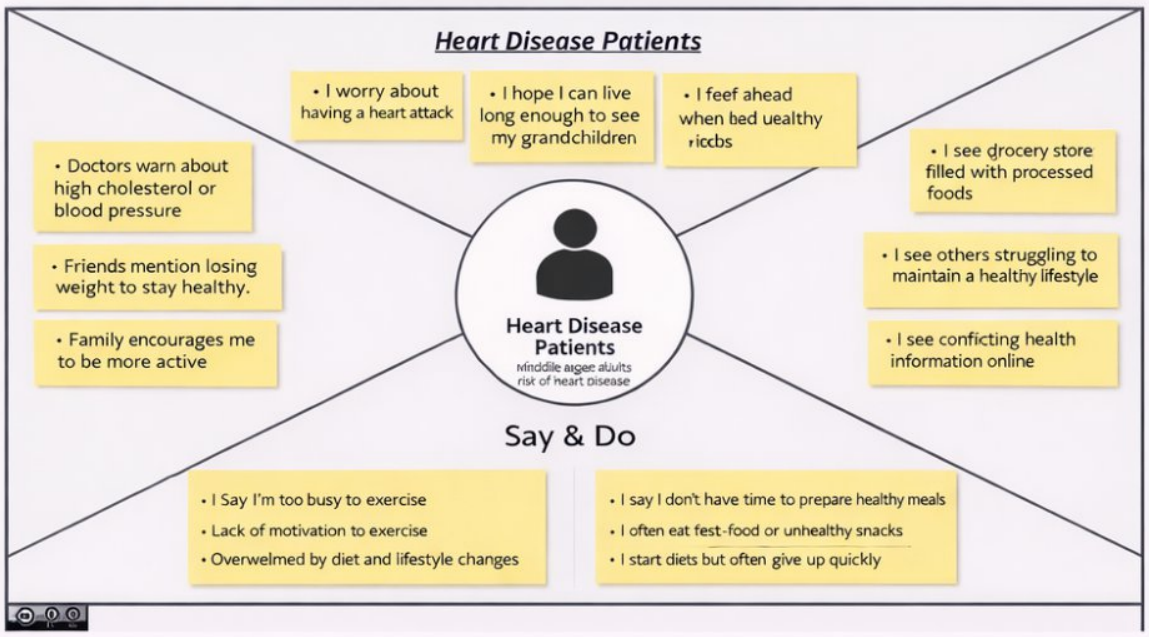
Empathy Map Canvas
Heart Disease Analysis

An empathy map canvas is a simple, easy-to-digest visual that captures knowledge about a user's behaviors, challenges, and attitudes.

It is a useful tool to helps teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps particpats consder things from the user's perspective along with his or her goals and challenges.

Heart Disease Analysis Empathy Map



Example: Diet & Heart Health Application

Pain	Hear	See	Say & Do
• Eating healthy is sıntfiusing	• Doctors say to reduce fatty foods	• I see cometlıing diet information online	• I say I will start eating better next week
• I want to lower my cholesterol	• Family talks about eating more vegetables	• I see high-fat, sugary foods advertised	• I try fad diets but quit quickly
• I fieels hard to change my eating habits	• Social media shows-heart-healthy recipes	• I see grocery stores full of tempting snecks	• I Grab chips and soda when stressed

Pain

- Difficulty understanding how to eat heart healthy
- Lack of motivation to exercise
- Overwhelmed by diet and lifestyle changes

Gain

- Elasy, simple dietary guidelines
- Effective strategies to manage stress and exercise
- Confidence in preventing heart disease
